

Hidria
Gonvarri Industries

Maximize your plant's potential.
Boost effectiveness.
HIDRIA INDUSTRIAL AUTOMATION

As part of the Gonvarri Industries group, Hidria's Industrial Automation Competence Centre is available to support your business with **end-to-end automation solutions** – from initial process analysis to full implementation.

We bring decades of automotive-grade know-how in custom assembly lines, robotic systems and state-of-the-art quality inspection solutions.

FULL-SPECTRUM AUTOMATION CAPABILITIES

- Custom assembly line design, build & integration
- Robotic solutions: multi-axis, SCARA, Cartesian
- Machine vision for quality & process inspection
- Precision measurements - electrical, force, torque, pressure, flow
- Welding, dosing, marking & packaging automation
- Hidria's proprietary control panel HMI
- Industry 4.0 compatibility
- Standardized automation modules - manipulators, feeders, linear guides

PROVEN ACROSS INDUSTRIES

- Automotive
- Household Appliances
- Electrical Industry
- Medical
- Sanitary

THE OPPORTUNITY FOR YOUR PLANT

We analyze your production process in depth to identify the optimal automation solution, balancing technical performance, operational efficiency, and measurable Return on Investment (ROI).

WHY HIDRIA INDUSTRIAL AUTOMATION?

- TÜV ISO-Certified Quality & Environmental Management
- MFM&A & MSA verifications
- Automotive-grade precision
- AI-assisted solutions
- Gonvarri Group partner
